<p>DOCUMENTATION</p>	<ul style="list-style-type: none"> • Full/Alt Doc • When all income used to qualify a loan for the borrower is made up exclusively of wage earner income reported on a W2 and/or fixed income reported on a 1099 (i.e., social security or VA benefits) transcripts are not required, unless full tax returns are required for the borrower by the AUS (i.e., borrower employed by family members). If multiple borrowers are qualifying on the loan, but the tax returns are not filed jointly, and one borrower requires full returns, but the other borrowers are qualified exclusively on W2 and/or fixed income then no transcripts are required for the W2/fixed income borrower and 1040 transcripts are required for the self-employed borrower/borrower requiring full returns. When using this option, there can also be no tax returns included in the loan file (including if tax returns are required to be reviewed by the PRMG underwriter for MCC Approval or other purpose). If the borrower earns other income that is used to qualify that would be able to be validated with 1040 transcripts (i.e., rental income from tax returns, etc.) then 1040 transcripts are required to validate that income. A completed and executable (signed) 4506T must be submitted with the loan file. For the borrowers where transcripts are not required, be sure to select the W2/1099 option only when completing the 4506-T. Do not mark the 1040 or Record of Account option. • When tax returns are required for a borrower or when borrower’s qualifying income is not made up of W2 or fixed income reported on a 1099, validated 1040 tax transcripts are required if borrower’s income is utilized as a source of repayment. If multiple borrowers are qualifying but the tax returns are not filed jointly (when one borrower requires full returns), then it is acceptable to provide no transcripts for the salaried/fixed income borrower and 1040 transcripts for the self-employed borrower/borrower requiring the tax returns.

- For Freddie Mac (LPA) loans: If there is proof of expenses incurred by the borrower that would reduce income (i.e., 2106 expenses, reimbursed expenses (at underwriter discretion as it may be an indication of unreimbursed expenses), reference to 1099 commission income, or if commission income exceeds 25% of borrower's total annual employment income) then 1040 transcripts are also required. If there is evidence or proof of expenses that would reduce income then the no transcript option is not allowed to be utilized. See [Agency LP Fixed or ARMs](#) to not reduce 2106 expenses for borrowers who are salaried (wage, bonus, etc.) except when 25% of income comes from commission income or borrower has another income type that requires full tax returns on the loan.
- For Fannie Mae (DU) loans: For a borrower who is qualified using either (1) base pay, (2) bonus, (3) overtime, or (4) commission income, then unreimbursed employee business expenses are not required to be analyzed or deducted from the borrower's qualifying income, or added to monthly liabilities. This applies regardless of whether unreimbursed employee business expenses are identified on tax returns (IRS Form 2106) or tax transcripts received from the IRS. Union dues and other voluntary deductions identified on the borrower's paystub do not need to be deducted from the borrower's income or treated as a liability.
- See [Agency Portfolio Product](#) or [Agency LP Fixed or ARMs](#) for Stamped Return option
- When required, transcripts must be provided for the number of years of income documentation required to be in the loan file, in accordance with the AUS findings and/or Agency requirements. Tax transcripts are required to support the income used to qualify the borrower. The purpose of the 4506-T is to verify the income reported is accurate and when utilizing the 1040 tax transcripts to confirm that the employee does not have other expenses (such as 2106 expense) that otherwise would not be known.
- Tax transcripts must come to lender directly from the IRS or through a third party vendor ordered/obtained by lender
- See Fannie Mae's Day 1 Certainty Section for information when loan is eligible for Fannie Mae Day 1 Certainty findings
- When business tax returns are required by AUS, business income is used to qualify, business income is used to offset a loss on personal tax returns or is included in the loan file, a separate IRS Form 4506-T must be executed (but not processed and must allow enough time to be executed post-closing after delivery to investor) for each business for the required number of years of income documented, for each self-employed borrower on the loan transaction. Allowable signatures (per IRS):
1120/1120S: Borrower must sign name with title and only the following titles are acceptable: President, Vice President, CEO, CFO, Owner, 1065: Borrower must sign name with title and only the following titles are acceptable: General Partner, Limited Partner, Partner, Managing Member, Member
- When an extension for business tax returns has been filed for the most recent tax year the IRS Form 7004 and the IRS Form 4506-T transcripts confirming "No Transcripts Available" for the applicable tax year are required. The IRS form 4868 will continue to be required for extensions filed for personal tax returns.
- W2 transcripts are allowed to take the place of a W2 when there is a reasonable explanation as to why they cannot be provided and Fannie Mae or Freddie Mac's requirements are met, as outlined in sections B3-3.1-02, Standards for Employment Documentation of Fannie Mae's Seller Guide and Chapter 5302 General Documentation Requirements of Freddie Mac's Seller Guide.
- Preliminary Title policy must be no more than 90 days when the note is signed
- Bank statements cannot be dated more than 45 days prior to the date of the loan application

	<ul style="list-style-type: none"> • When paying off any non-transaction related item (i.e., debts, third party payouts, etc.) that has a balance of \$5,000 or more, paid for by either borrower or seller, to ensure that the total payoffs are accurate, copies of the actual invoices (statements), an updated (current) credit report/refresh or credit supplement reflecting the current balance with a signed amendment (or similar) authorizing disbursement for these account(s) are required. You cannot use the amount listed on the credit report to document the payoff amount. • All documentation used in qualifying the borrower must be legible and if not in English, will require a full written translation of the entire documentation into English. • All loans meeting Rebuttable Presumption under QM/ATR requirements must have the Residual Income Evaluation worksheet/requirements met. See Residual Income Evaluation section for requirements. • If using a PRMG Closed End Second product in conjunction with the first trust deed, see PRMG Concurrent (Piggyback) Closed End Second section for more information.

If the Verbal VOE is completed more than 10 days prior to the funding date, another Verbal VOE should be completed 10 days prior to funding date for escrow states. • For self-employed borrowers: No more than 120 calendar days prior to note date, verify the existence of the borrower’s business from a third party that may include a CPA letter (cannot be vague, must state length of time doing taxes and be signed by CPA), regulatory agency, or appropriate licensing bureau; OR verify a phone listing and address for the borrower’s business through resources such as the telephone book, directory assistance, internet, or contact the appropriate licensing bureau. Verification may not be made verbally, and a certification by PRMG indicating the information was verified is not allowed. Documentation from the source used to verify the information must be obtained and in the file. Internet sites such as 411.com, Chamber of Commerce sites and Manta.com where they allow the business owner to add their own information are not acceptable. Also single source verifications, such as from superpages.com, yellowpages.com and searchbug.com are not allowed. If all other methods of obtaining third party verification have been exhausted, the borrower can provide letters from three clients indicating the type of service performed, length of time of business relationship, frequency of service, payment arrangements, etc. and support the income with current bank statements, deposits, etc. The underwriter must thoroughly investigate that the business, income and proof of business is legitimate. • Amended tax returns must have been filed at least sixty (60) days prior to the earliest of the purchase agreement, initial credit report date, or mortgage application date, unless the changes made are non-material to the amount of income claimed, and qualification for the mortgage loan. When using the amended returns if filed within sixty (60) days to the earliest of the purchase agreement, initial credit report date, or mortgage application date, or after, the Underwriter must provide justification and commentary regarding its use, including that borrower does not require use of amended income for qualification. Regardless of when the amended returns were filed, due diligence must be exercised with close examination of the original, and amended returns, to determine if the use of the amended return is warranted and the following documentation should be reviewed when income from the amended return is required: A letter of explanation regarding the reason for the re-filing; evidence of filing (must be validated with a record of account (4506T results); copy of the original 1040; any extensions filed, and evidence of payment of the taxes due, and the ability to pay, if the check has not yet cancelled. S. Securities and Exchange Commission or any State securities agency, regardless of the project type. • A Condominium Hotel is a project that is operated and managed as a hotel or similar type of transient property, even though the units are individually owned. Projects that have one or more of the following characteristics are considered a Condominium Hotel or similar type of transient property, and are ineligible projects: (1) Projects that include hotel type services and characteristics such as registration services, rentals of units on a daily basis, daily cleaning services, central telephone service, central key systems and restrictions on interior decorating; (2) Projects that are conversions of a hotel (or a conversion of a similar type of transient housing); (3) Projects with mandatory or voluntary rental-pooling and revenue-sharing agreements (or similar agreements that restrict the unit owner's ability to occupy the unit) to assure an inventory of units for rent on a frequent basis, such as daily, weekly, monthly or seasonally (see Section 5701 for further guidance), and (4) Projects with names that include the words "hotel," "motel," "inn," "lodge" or a branded hotel chain or name. If owners of Condominium Units in projects in resort locations rent their units (either individually or through a rental management company) on a short-term basis, this alone does not indicate that the project is to be considered a Condominium Hotel. Sellers must fully analyze all the characteristics of the project and related information to determine if the project is a Condominium Hotel. Section 5701 provides additional details on determining whether a project is a Condominium Hotel. • Project with multi-dwelling units: A project in which an owner may hold a single deed evidencing ownership of more than one dwelling unit. • Project in which more than 35% of the total above and below grade square footage of

	<p>the project (or more than 35% of the total above and below grade square footage of the building in which the project is located) is used as commercial or non-residential space.</p> <ul style="list-style-type: none"> • Tenancy-in Common apartment project: A tenancy-in-common apartment project is owned by several owners as tenants-in-common or by a Homeowners Association (HOA). Individuals have an undivided interest in the residential apartment building (including the units) and land on which the building is located, and may or may not have the right of exclusive occupancy of a specific apartment unit in the building. • Timeshare project or project with segmented ownership: A project in which there is an arrangement under which a purchaser receives an interest in real estate and the right to use a unit or Amenities, or both, for a specified period and on a recurring basis such as the 15th week of the year, or ownership that is for a limited period such as for the subsequent five years. • Houseboat project: A project comprised of boats that have been designed or modified to be used primarily as dwelling units. • Project that is a legal nonconforming use: A Condominium Project with legal non-conforming use and the jurisdiction in which the project is located does not allow the rebuilding of the improvements to current density in the event of their partial or full destruction. This restriction does not apply to Detached Condominium Projects or if the jurisdiction in which the project is located allows the rebuilding of the improvements to their current density in the event of their partial or full destruction. • Project in litigation in which (i) the HOA is named as a party to pending litigation, or (ii) the project sponsor or developer is named as a party to pending litigation that relates to the safety, structural soundness, functional use or habitability of the project. If the Seller determines that the reason for the pending litigation involves minor matters that do not affect the safety, structural soundness, functional use or habitability of the project, the project is eligible if the litigation is limited to one of the following: 1. The litigation amount is known, the insurance company has committed to provide the defense and the litigation amount is covered by the insurance policy; 2. The litigation amount is unknown, the Seller has documented the Mortgage file with a copy of the complaint, or the most recent amended complaint, and with an attorney letter that supports the Seller's determination that the litigation involves minor matters. The attorney letter must state: (i) the reason for the litigation; (i) that the insurance company has committed to provide the defense; and (iii) that any potential monetary judgment against the HOA, or settlement with the HOA, including punitive damages, will likely be covered by the HOA's insurance policy. If the attorney indicates the matter will not likely be covered by the HOA's insurance policy, then the project is ineligible; or 3. The matter involves: i. A non-monetary neighbor dispute or right of quiet enjoyment, or ii. The HOA is the plaintiff in a foreclosure action or action for past due HOA assessments, or iii. The HOA is the plaintiff in the litigation seeking reimbursement for expenditures made to repair the project's component(s) which may have included items that related to the safety, structural soundness, functional use or habitability of the project, the repair permanently resolved the defect or issue and the expenditures did not significantly impact the financial stability or future solvency of the HOA. The Seller must retain documentation to support its analysis that the reason for the dispute meets Freddie Mac's requirements for minor matters as described above. • Project sold with excessive Seller contributions: Any project that complies with the definition of a New Condominium Project where the builder, developer or property seller is offering contributions that do not comply with the requirements of the Purchase Documents, including Section 4204. Examples include, but are not limited to, rent-backs or leasebacks, payments of principal, interest, taxes and insurance (PITI) or

state, or local laws cannot be considered for loan qualification for both self-employed borrowers and wage earners working for a company.

- Fannie Mae requires that if the Schedule K-1 reflects a documented, stable history of receiving cash distributions of income from the business consistent with the level of business income being used to qualify, then no further documentation of adequate business liquidity to support the withdrawal of earnings is required in order to include that income in the borrower's cash flow. If the Schedule K-1 does not reflect a documented, stable history of receiving cash distributions of income from the business consistent with the level of business income being used to qualify, then the lender must confirm the business has adequate liquidity using the Quick (Acid Test) Ratio (for businesses that rely heavily on inventory to generate income) or the Current (Working Capital) Ratio to support the withdrawal of earnings to include the income in the borrower's cash flow and the result of one or greater for either ratio is generally sufficient to confirm adequate business liquidity. The file must contain the underwriter's written analysis and conclusions and, at underwriter's discretion additional documentation (such as a CPA letter or bank account statements) to support the liquidity decision. The analysis must provide enough detail/support so that anyone reviewing the file would come to the same conclusion. See Fannie Mae seller guide for additional guidance.
- When required to verify a self-employed borrower's business is solvent in order to use the business income to qualify and the Schedule L on the business tax returns is not completed, additional documentation will be required to support solvency of the business. Documentation may include P&L, balance sheets, business bank statements and business credit report. Specific documentation will be determined at underwriter's discretion.
- Distributions from an investment (non-employment/non-retirement related) account are not an acceptable source of income but dividends earned from those investment accounts and reported on the 1040s are an acceptable source of income.
- Follow Agency requirements for non-reimbursed business expenses calculations. If the borrower has claimed automobile depreciation on Form 2106, this expense should be added to the borrower's income. Vehicle depreciation can be calculated one of two ways – by using the standard mileage deduction or actual depreciation expense. The method used by the borrower will be disclosed on the second page of Form 2106. If the borrower used the standard mileage deduction, multiply the business miles driven by the depreciation factor for the appropriate year and add the calculated amount to Total Income. If the borrower claimed the actual depreciation expense, add this amount to Total Income.

- For borrowers with rental income, if a lease agreement is required then the lease agreement must be executed by the landlord and the tenant and all pages of the lease agreement must be included.
- For all subject investment properties and all 2-4 unit primary residences, when rental income is not used to qualify, the gross monthly rental income for each unit must be documented with one of the following:
 - If the property is currently rented: Form 1007, Form 1025, or Current Lease Agreement(s)
 - If the property is not currently rented: an opinion of market rents by the appraiser or borrower to provide the gross monthly rent being charged or to be charged for the property. Monthly rental amounts must be stated separately for each unit. The disclosure from the borrower must be in the form of a written

statement from the borrower or an addition to the loan application

- Housing Assistance Payments (HAPs), which are often known as Section 8 Homeowner Vouchers, where a portion of the mortgage payment is paid directly to the borrower/lender as a subsidy for the mortgage payment on the subject property is not allowed.
- Section 8 rents where borrower is paid a rent subsidy for other tenants from the government for the property (either for rents on units 2-4 on subject property or on other rental property) is allowed. Must have documentation of new executed leases, or lease addendums to the new owner and to show that the Section 8 income will transfer to the new owner. Additionally there may be no obligation to the servicer to receive the Section 8 funds. Borrowers must follow standard guideline requirements to determine if rents are allowed to be used for qualifying.
- When the borrower has less than a two-year history of receiving income, the underwriter must provide a written analysis to justify the determination that the income used to qualify the borrower is stable.
- If assets were used in any part of a Borrowers Qualifying Income (as allowed by Agency), Underwriter must add a “note” with the following text on the loan approval (not to FastTrac notes) to assist Post-Closing’s delivery process “Assets were used in any part of a Borrowers Qualifying Income”
- If the borrower is employed by a relative or a family business, the following documentation must be obtained:
 - Documentation as required by AUS
 - Borrower’s signed and completed personal federal income tax returns for the most recent two year period.
 - A 4506-T must be included in the submission package requesting the most recent 2 years tax transcripts and will be processed for comparison between tax transcripts and income documentation. A 4506-T must be signed at application and at closing.
 - Note: Current income reported on the VOE or pay stub may be used if it is consistent with W-2 earnings reported on the tax returns. If the tax returns do not include W-2 earnings or income is substantially lower than the current VOE or pay stub, further investigation is needed to determine whether income is stable.
- Foreign Income: Foreign income (income generated from non-U.S. sources) may be used only if its stability and continuance can be verified, and is supported by a signed 4506 and 2 years U.S. Federal Tax Returns along with the most recent YTD paystub(s) and two years W-2s, or Written Verification of Employment and most recent YTD paystub(s) covering 30 days of income. If the income is paid in a foreign currency the file must contain a printout evidencing the source used for the conversion of the foreign currency into U.S. dollars. The income must also be verified in the same manner as U.S. income sources.
- Income from gambling not allowed. See [Agency Portfolio Product](#) or [Agency LP Fixed or ARMs](#)
- Teacher Income: when a borrower is employed as a teacher, the annual salary must be verified. If monthly or weekly base pay is provided, the employer must verify the number of pay periods per year if the payout is not clear or the income must be averaged based on the most recent W-2 over 12 months. Stipends or supplemental income must be documented as regular and continuous. Borrowers with a contract for their first year of employment who have started work but have not received a paystub must provide a copy of contract, written verification of employment, and verbal verification of employment. Borrowers with a contract for their first year of employment with the school district must be on the job prior to closing. For teacher income paid over a less than 12 month period and obtaining financing during the

	<p>summer months when income is not being received, provide a final year-end paystub from the school, verbal verification of employment, and copy of the contract indicating that the borrower is paid over a the applicable number of month period. Qualify the borrower based on the income received on the final year-end paystub.</p>

Must also comply with requirements listed in Credit Reestablishment Periods for Agency Loans which provides information regarding derogatory credit seasoning, including bankruptcy, deed-in lieu of foreclosure, short sales, foreclosures and loan modifications. • Borrowers who are on title only to a property (not on the note) that has a major derogatory credit event (i.e. foreclosure) are not subject to seasoning on that event • The use of a U.S. address to obtain a credit report for a borrower who resides in another country is not permitted. • If the borrower’s credit report contains a FACTA credit alert, the completed Fraud Alert Confirmation form must be in the file (available via Resource Center). • All borrowers must have a qualifying credit score from at least 1 national repository. • Borrower must have sufficient credit experience, as determined by underwriter review, to ensure scores are reflective of borrower’s credit history • Use of credit repair vendors designed to help a borrower falsely repair their credit profile by intentionally manipulating data to improve their credit score for purposes of loan eligibility, pricing improvement, and/or creditworthiness is prohibited. Legitimate scenarios when corrections to a borrower’s credit profile are required (e.g., public records information does not belong to the borrower) are acceptable. Corrections to the borrower’s credit profile should be made at the credit repository level to ensure the credit score is representative of a borrower’s true creditworthiness. • MERS search must be run on borrower • Credit documentation must not be more than 120 days old from the note date • Payment histories on all mortgage tradelines, regardless of occupancy, including first and second mortgage liens, home equity lines of credit, land without improvements, mobile homes, and manufactured homes are considered mortgage credit, even if reported as an installment loan. • For disputed accounts with DU approval: follow AUS results. • For disputed accounts with LPA approval: Unless a specific disputed message is received in the finding (i.e., incomplete 21/multiple disputes or similar) the disputed accounts can be disregarded. However, supporting documentation and a written explanation from the borrower must be provided for Underwriter consideration. If there is a disputed message in the findings (i.e., incomplete 21/multiple disputes or similar) that indicates action must be taken on the accounts, unless other specific guidance is given within the LPA findings, the borrower must have the disputes removed at the bureau level, then re-pull credit, and run through LPA without the disputes. • In addition to other listed requirements regarding disputed accounts, if a disputed account is a borrower’s verified previously delinquent mortgage trade line, which may affect the credit decision of the AUS, information regarding the dispute must be obtained. The underwriter must verify that the AUS is considering the previously delinquent mortgage in the credit decision. If it is unclear if the previously delinquent mortgage is being considered (and based on underwriter discretion, the delinquent mortgage may impact the credit score/AUS decision), the dispute should be removed at the bureau level, credit report re-run to reflect accurate credit message without dispute, and the AUS re-run to include account in the AUS decision. For instance, a

Documentation of the satisfaction of these liabilities, along with verification of funds sufficient to satisfy these obligations, must also be obtained • If a judgment or tax lien is being paid off and AUS/Agency Guidelines are requiring proof of satisfaction or if it is paid off prior to closing, evidence the judgment is satisfied or the tax lien has been released is required. If the AUS/Agency Guidelines will allow a judgment or tax lien to be paid off with the transaction all AUS/Agency Guidelines must be met (i.e., must be paid through the transaction and funds must be verified and documented). • For past-due collection and charge-off accounts, always comply with AUS requirements. Additionally, accounts that are reported as past-due (not reported as collection accounts) must be brought current. If any lien threatens the first trust deed position it must be satisfied. • See "Credit Reestablishment Periods for Agency Loans" for additional information (can be found in the Product Profiles in FastTrac.). • PRMG does not allow use of extenuating circumstances in the credit decision for reduced seasoning or satisfactory credit requirements.
LDP/GSA REQUIREMENT	<ul style="list-style-type: none"> • All parties involved with and who handle the loan file (see instructions in the Resource Center for additional information) must be checked against HUD's Limited Denial of Participation (LDP) list at https://www5.hud.gov/ecpcis/main/ECPCIS_List.jsp and the General Services Administration's (GSA) Excluded Party List at https://www.sam.gov/portal/public/SAM/ • Any entity noted on either of the LDP and GSA lists must be removed from the transaction or will cause the loan to be ineligible. • The parties to verify include, but are not limited to, Buyers (including AKAs on the credit report), Sellers, Loan Officer, Buyers Agent, Sellers Agent, Escrow Officer, Title Officer, Appraiser, Processor, and Underwriter.
RATIOS	<ul style="list-style-type: none"> • See LTV Grid. • Blended ratios are acceptable with LPA Approval or with DU. Blended ratios are when the income of the borrower(s) and non-occupant co-borrower(s) are pooled

<p>QUALIFYING</p>	<ul style="list-style-type: none"> • Qualify at note rate. • To calculate DTI for loans with subordinate HELOCS (for all properties): If there is a balance, use the payment that is reflected on the credit report. If not shown on the credit report, payments on a HELOC with an outstanding balance may be calculated at the greater of \$10.00 or 5% of the outstanding balance or payment reflected on the borrower’s billing statement. If there is no balance, a payment does not need to be included. If the subject property will have a HELOC that will have a draw taken with the transaction, obtain a copy of the note or other documentation to determine what the payment will be at close and use that for qualifying. • Paying off revolving debt to qualify is allowed. The debt includes any revolving debt (including American Express) that is being paid off and not included in the ratios. Account must be paid in full prior to or at closing and documentation must be provided evidencing repayment. Source of funds must be documented (proceeds on a cash out transaction are acceptable.) Accounts are not required to be closed. • Installment debt may be paid down to qualify, but overall use of credit and credit history must be closely evaluated. • Installment debt with less than 10 months remaining does not need to be included in ratios unless the payment may affect the borrower’s ability to meet their credit obligations after closing, with additional consideration if the borrower has limited or no cash after closing. (Lease payments are not considered installment debt and must be included in the ratios.) • Lease payments must be included in the ratios regardless of the number of months remaining on the lease. This is because the expiration of a lease agreement for rental housing or an automobile typically leads to either a new lease agreement, the buyout of the existing lease, or the purchase of a new vehicle or house. You cannot pay off the lease to qualify in any circumstance and the payment must be included in the ratios. • For DU loans: Deferred Loans: Loans deferred or in forbearance are always included in the loan qualification. If the credit report does not indicate the monthly amount that will be payable at the end of the deferment period, copies of the borrower’s payment letters or forbearance must be obtained to determine the monthly payment used for loan qualification. See below for student loans. • For LPA Loans: For installment loans other than a student loan, if it is not reported on the credit report or is listed as deferred or in forbearance, obtain documentation verifying the monthly payment amount. • For LPA loans with student loans in repayment, deferment or forbearance, if the monthly payment amount is greater than zero, use the monthly payment amount reported on the credit report or other file documentation, or • For LPA loans with student loans in repayment, deferment or forbearance, if the monthly payment amount reported on the credit report is zero, use 0.5% of the outstanding balance, as reported on the credit report • For DU loans: For all student loans, whether deferred, in forbearance, or in repayment (not deferred), the lender must include a monthly payment in the borrower’s recurring monthly debt obligation when qualifying the borrower. If a monthly student loan payment is provided on the credit report, the lender may use that amount for qualifying purposes. If the credit report does not reflect the correct monthly payment, the lender may use the monthly payment that is on the student

loan documentation (the most recent student loan statement) to qualify the borrower. If the credit report does not provide a monthly payment for the student loan, or if the credit report shows \$0 as the monthly payment, the lender must determine the qualifying monthly payment using one of the following options: (1) If the borrower is on an income-driven payment plan, the lender may obtain student loan documentation to verify the actual monthly payment is \$0. The lender may then qualify the borrower with a \$0 payment. (2) For deferred loans or loans in forbearance, the lender may calculate (a) a payment equal to 1% of the outstanding student loan balance (even if this amount is lower than the actual fully amortizing payment), or (b) a fully amortizing payment using the documented loan repayment terms.

- If a credit report shows an asterisk next to the payment, it can be an indication that the payment listed is not the required monthly minimum payment amount, and as such will require supplemental documentation to support a payment of less than 5%. If supporting documentation is not able to be provided, use 5% of the outstanding balance as the borrower's recurring monthly debt obligation
- For non-HELOC loans, when qualifying a borrower that has a non-subject negative amortization or interest only loan, use the fully amortized payment (for the option to use the payment on the credit report, see [Agency Portfolio Product](#))
- For any additional properties, obtain a recent payment coupon or other documentation to ensure the loan is qualified using the full PITIA.
- When the current housing payment is required for qualifying (for instance, renting primary and the subject is Second/NOO) and is not reported on the credit report, provide third party verification of payment amount to verify the housing expense on the borrower's principal residence. If living rent free, a rent free letter from landlord or person obligated on lease required.
- If the borrower is on a payment plan with the IRS for prior tax years, the underwriter must condition for proof the money owed has been paid in full or verify the borrower has been in a payment plan that has been paid on time for at least 6 months (or less, but at least one payment must be made, based on underwriter's discretion) and count the debt in the DTI. There is no requirement for a record of account or other documentation to reflect tax payment status. For the current tax year (most recent tax filing), if the borrower is in a payment plan, the monthly tax payment amount must be included in the calculation of the borrower's DTI ratio, with at least one month payment required to have been made. Even if the 1040s shows payment due as long as there is no other evidence of an outstanding tax debt (i.e., tax liens, payments to the IRS) no additional evidence to reflect payment of the taxes is required. For Amended Tax Returns, see the guidance in the Product Profile for further requirements.
- Tax liens must be paid off prior to, or at closing, regardless of if the borrower has a satisfactory payment plan and the government will allow subordination of the lien.
- At minimum, an interest only payment must be included in the debt ratio for borrowers with a single payment Note. A single payment Note is one in which the loan, including principal and interest, is due in one lump sum payment. A single payment Note would be an unsecured Note which is not tied to the property in any way. Reserves and loan proceeds may not be used to offset payments.
- When commercial properties are reflected on the Schedule E they must be **documented/treated the same as a residential property for determining rental income, per agency guidelines**. If there is mortgage interest reflected on Schedule E, must **determine if borrower is personally obligated on the note and if so, obtain a mortgage rating that meets guidelines for mortgage payment history**.
- If loan is a Corporate Relocation, Underwriter must add a "note" on the loan

	<p>approval (not to FastTrac notes) to assist Post-Closing’s delivery process</p> <ul style="list-style-type: none"> • If borrower or non-occupant co-borrower will not be occupying the subject property (i.e., borrower on second home or investment property and any non-occupying co-borrower) does not have a current housing expense, because they state they live rent free on the 1003, proof they live rent free must be provided. Acceptable documentation would include, but is not limited to, an LOE from the owner/landlord of the residence where they currently live. • For loans secured by financial assets, evidence the loan is collateralized by the financial asset is required (i.e., 401K statement showing loan) or payment must be included in the ratios. • For loans using DU Approvals, if a borrower is obligated on a non-mortgage debt—but is not the party who is actually repaying the debt—the lender may exclude the debt from the borrower’s recurring monthly obligations. This policy applies whether or not the other party is obligated on the debt, but is not applicable if the other party is an interested party to the subject transaction (such as the seller or realtor). Non-mortgage debts include installment, revolving, lease payments, alimony, child support, and separate maintenance. The lender must obtain the most recent 12 months’ cancelled checks (or bank statements) from the other party documenting a 12-month satisfactory payment history. There must be no delinquent payments for that debt in order to exclude it from the borrower’s debt-to-income ratio. • For LPA Approvals, co-signed leases may follow standard contingent liability requirements. • If borrower is on title (has ownership interest) and is on the note to other properties besides the subject property, follow agency guidelines for co-signed/contingent liabilities/debt paid by others for both the P&I payment as well as the TIA. If the PITIA is excluded because it is paid by another party, the mortgaged property must still be included in the borrower’s property count, and the property must be included in the reserve calculation for multiple financed properties. • For loans using DU: If borrower is just on title, and not obligated on the note for non-subject properties, the TIA does not have to be included in borrower’s ratios. • For loans using LPA: if borrower is on title, but not on the note to a non-subject property, he is responsible for the taxes, insurance, association, and they will include it in borrower’s DTI ratios.

- Access letter is not required for any accounts where a non-borrowing party is on the account (including a non-borrowing spouse)
- On non-owner occupied transactions, provided a joint account with a non-borrowing party is an established account and the borrower has unrestricted access, the funds in the account can be used for the transaction even if the joint account owner is not on the loan (the funds will not be considered a gift.) However, any large deposits must be sourced to the borrower.
- Custodial accounts are not an acceptable asset type
- The following are required to document the sale of personal assets for funds to close: the borrower's ownership of the asset, the value of the asset, as determined by an independent and reputable source, the transfer of ownership of the asset, as documented by either a bill of sale or a statement from the purchaser, the borrower's receipt of the sale proceeds from documents such as deposit slips, bank statements, or copies of the purchaser's canceled check. Depending on the significance of the funds in question, the lender may accept alternatives to this required documentation, particularly when the proceeds of the sale represent a minor percentage of the borrower's overall financial contribution.
- All asset sources used to qualify borrowers must be legal at the local, state, and federal level. Any assets derived from an activity or source that violates Federal, state, or local laws cannot be considered for loan qualification for both self-employed borrowers and wage earners working for a company.
- Cash on hand, including cash deposits that are typical for the borrower's line of work, are not allowed to be used for down payment, closing costs and reserves unless they are sourced or seasoned.
- Cryptocurrency, digital currencies or altcoins (i.e. Bitcoins, Litecoin, Ethereum, etc.) may not be included as financial assets for mortgage qualification purposes and is an ineligible source of funds for down payment, closing costs or reserves unless being converted into U.S. currency. To be used as a source of funds for down payment, closing costs, or reserves, cryptocurrency, digital currencies or altcoins must be converted into U.S. currency and be held within a U.S. Financial Institution and verified prior to underwriting final approval. In addition to the verification of U.S. currency, the borrower(s) must be able to provide acceptable documentation for the source of funds used to initially acquire the cryptocurrency prior to the conversion.
- If the borrower's source of funds are from a country included on the OFAC Sanctioned Countries List that is found in the Resource Center, the funds are not eligible for use in the transaction.
- Any allowable fees paid by credit card (DU or LPA) or unsecured line of credit (LPA only – not allowed on DU), must comply with Agency requirements, including ensuring the borrower has sufficient verified funds to pay these fees and the amount charged for the fee is included in the borrower's DTI, as appropriate.
- For loans with DU approval: Large deposits must be evaluated when bank statements (typically covering the most recent two months) are used. Large deposits are defined as a single deposit that exceeds 50% of the total monthly qualifying income for the loan. For refinances, documentation or explanation for large deposits is not required; however, the underwriter remains responsible for ensuring that any borrowed funds, including any related liability, are considered (if using the funds in a refinance transaction you still must confirm they are from an acceptable source). For purchases, If funds from a large deposit are needed to complete the purchase transaction (that is, are used for the down payment, closing costs, or financial reserves), the underwriter must document that those funds are from an acceptable

source. Occasionally, a borrower may not have all of the documentation required to confirm the source of a deposit. In those instances, the underwriter must use reasonable judgment based on the available documentation as well as the borrower's debt-to-income ratio and overall income and credit profile. Examples of acceptable documentation include the borrower's written explanation, proof of ownership of an asset that was sold, or a copy of a wedding invitation to support receipt of gift funds. The underwriter must place in the loan file written documentation of the rationale for using the funds. Verified funds must be reduced by the amount (or portion) of the undocumented large deposit (as defined above), and the underwriter must confirm that the remaining funds are sufficient for the down payment, closing costs, and financial reserves. When the underwriter uses a reduced asset amount, net of the unsourced amount of a large deposit, that reduced amount must be used for underwriting purposes. Note: When a deposit has both sourced and unsourced portions, only the unsourced portion must be used to calculate whether or not it must be considered a large deposit. Note: If the source of a large deposit is readily identifiable on the account statement(s), such as a direct deposit from an employer (payroll), the Social Security Administration, or IRS or state income tax refund, or a transfer of funds between verified accounts, and the source of the deposit is printed on the statement, the underwriter does not need to obtain further explanation or documentation. However, if the source of the deposit is printed on the statement, but the underwriter still has questions as to whether the funds may have been borrowed, the underwriter should obtain additional documentation.

- For LPA Loans: All borrower funds and reserves used in the evaluation of the mortgage must be from eligible sources of funds meeting the requirements of the guidelines. Asset documentation must always meet the requirements as stated in the guidelines. File must be included in the mortgage file. The following requirements apply when evaluating deposits on the borrower's account statements: except as stated below, the underwriter is not required to document the sources of unverified deposits for purchase or refinance transactions. However, when qualifying the borrower, the underwriter must consider any liabilities resulting from all borrowed funds. For purchase transactions, the underwriter must document the source of funds for any single deposit exceeding 50% of the total monthly qualifying income for the mortgage if the deposit is needed to meet the requirements for borrower funds and/or reserves. When a deposit that is covered by for purchase transactions as indicated previously, is not documented and is not needed for borrower funds and/or required reserves, the underwriter must reduce the funds used for qualifying purposes by the amount of the unverified deposit. The underwriter must enter the reduced amount of the asset into Loan Product Advisor. When a single deposit consists of both verified and unverified portions, the underwriter may use just the unverified portion when determining whether the deposit exceeds the 50% requirement in state regarding purchases previously. When the source of funds can be clearly identified from the deposit information on the account statement (e.g., direct payroll deposits) or other documented income or asset source in the Mortgage file (e.g. tax refund amounts appearing on the tax returns in the file), the underwriter is not required to obtain additional documentation. The underwriter must document the source of a deposit of any amount regardless of the transaction type if the underwriter has any indication that the funds are borrowed or are not from an eligible source as described in the guidelines.
- Sweat equity and cash on hand not allowed
- When using foreign assets, funds must be transferred into a U.S. bank/deposit account prior to closing, proof the transferred funds belonged to borrower(s) prior to

	<p>transfer and verification of the source for large deposits is required</p> <ul style="list-style-type: none"> • When using a rent credit for option to purchase, property must be primary residence • When business funds are used, the following requirements must be met: Assets must be related to the business that the Borrower owns that is documented in the loan file and if borrower is not 100% owner, evidence that borrower has access to use the funds is required; Borrower must be at least 25% owner in the business (to be considered self-employed and eligible to use the assets); Verification of funds in the account is required. (Note: Large deposits that are not in line with business revenue/income stream should be explained and verified.) Regardless of the documentation required for the process type, the underwriter must perform a cash flow analysis based on the tax returns provided, as well as analyzing, at minimum, the most current three month's business bank statements to determine that the withdrawal of funds will not have a detrimental effect on the business. The file must contain the underwriter's written analysis and conclusions and documentation (such as a CPA letter (preferred) or 12 months bank account statements) to support the decision. The cash flow analysis must provide enough detail/support so that anyone reviewing the file would come to the same conclusion. • When wiring assets/funds (either gift funds or the borrowers own funds) for closing, like all assets, they must be appropriately and completely documented. • If the wire is for gift funds and does not show the donor's name and account number then a statement/transaction history documenting the outgoing wire would be needed. The statement/transaction history would need to contain the account owner's information. • Funds that are brought to closing (i.e., cashier's checks or wire) by the borrower must be verified as belonging to the borrower. The required funds from the borrower do not have to be from an institution that was sourced in the loan file, as long as the borrower has sufficient funds in the sourced accounts to cover the amount of funds brought to closing. If the funds are not able to be confirmed as belonging to the borrower, the funds would be ineligible. This guidance is only in regards to borrower funds, <u>not</u> gift funds.
<p>1031 TAX DEFERRED EXCHANGE</p>	<ul style="list-style-type: none"> • Allowed if the following requirements are met. • Section 1031 of the Internal Revenue Code allows investors to defer payment of state and federal capital gain taxes by exchanging investment property rather than selling investment property. This code section provides a strategy for the deferral of capital gains taxes, which in turn provides a property owner with substantially more proceeds to reinvest in a replacement property. • A tax deferred exchange, therefore, is the process of rolling over funds from one investment property into another, without having access to those funds. In a taxable sale, the property owner is taxed on any gain realized by the sale of the property. In an exchange; however, the tax is deferred. This section of the IRS code does not apply to primary residences. • Statement of borrower's equity, calculated as the lower of: (1) Sales price from the sales contract or (2) Gross trade value from the sales contract less the sum of the transfer fees and all lien balances on the currently owned property, and transfer fees on the new property or (3) Appraised value of the borrower's currently owned property plus any new transfer fees on the new property. • 1031 exchanges to be used towards down payment for investment property purchases only with the following restrictions: <ul style="list-style-type: none"> • Reverse exchanges are not allowed because the borrower is not in title to the property at the time of closing. • No Seller provided subordinate financing.

- The following transactions would not be considered a flip and would not be subject to additional Anti-Flipping Requirements. However, the appraiser must report and analyze a minimum three-year sales history for the subject property AND if the value has increased by 15% or more in one year or 30% in three years from the original sales price the appraiser must analyze and explain the increase if due to a below market sale, such as a property in foreclosure. If the increase was due improvements, the appraiser must analyze and explain.
 - State and Federally chartered financial institutions and government sponsored enterprises (Fannie and Freddie)
 - Sales by HUD of its real estate owned
 - Sales of properties acquired through inheritance – Must document seller’s inheritance of the property
 - Sales of properties acquired by employers or relocation agencies in connection with relocations of employees (Must provide relocation agreement indicating the seller acquired the property as a result of company transfer of the previous owner).
- The property Seller must have taken title to the subject property at least 1 day prior to the contract date on the sale of the property to the applicant.
- Property flip transactions are assessed by the seller's date of acquisition as the date of settlement on the seller's purchase of that property and the execution of a sales contract to another party.
- Any property that is involved in a re-sale that occurred within the last 6 months, must meet the following additional criteria:
- PRMG will verify that the property seller on the Purchase Contract is “In Title” and Owner. This can be verified by including a property sales history report, a copy of the deed of conveyance, a copy of the property tax bill, a computer generated print out from the assessor’s website or the title commitment or binder indication legal ownership. For refinances, this would also include a copy of the current mortgage, Deed of Trust, or Contract for Deed. The name of the owner on the title report must match the seller's name on the purchase contract.
- If the seller is an entity (LLC, trust, etc.) documentation showing legal registration of the entity such as articles of incorporation with the seal, or a business license.
- The borrower(s) can have no affiliation with the entity of any kind.
- Since the property seller has not owned the property for 12 months, then a chain of title for the last 12 months is required. Acceptable sources for the chain of title include copies of recorded deeds, tax statements, or a 12-month chain of title on the title commitment.
- A transaction where the property has been sold within the last 12 months requires scrutiny to ensure the transaction is legitimate. Some characteristics of fraudulent transactions include but are not limited to foreclosure bailouts, distressed sales, and inflated values due to stated improvements that are unsupported.
- The subject transaction cannot include a transfer of personal property or other special arrangement between buyer and seller.
- Non-arm’s-length transactions are prohibited. Verification that there is no apparent relationship between the parties to the transaction, either on the current sale or previous sale.
- A full appraisal is required
- Appraisals must indicate required sales history information.
- The appraiser must report and analyze a minimum three-year sales history for the subject property AND if the value has increased by 15% or more in one year or 30% in

An Appraisal Update is required on all appraisals dated more than 120 days prior to the note date.

- The Update Appraisal Form (1004D) must be used. If the value of the property is less than the original appraised value then a new appraisal will need to be ordered. If the value of the property has not declined, then the loan may process without requiring any additional fieldwork. The appraisal update must occur within the four months that precede the date of the note and mortgage. The original appraiser should complete the appraisal update; however, lenders may use substitute appraisers. When updates are completed by substitute appraisers, the substitute appraiser must review the original appraisal and express an opinion about whether the original appraiser's opinion of market value was reasonable on the date of the original appraisal report. The lender must note in the file why the original appraiser was not used.
- The use of an appraisal report (expired or unexpired) that was utilized for a different closed loan is not permitted.
- Properties with a condition rating of C5 or C6 in "as is" condition or "subject to repairs" are not acceptable. A quality rating of Q6 is not acceptable.
- For all refinances, if the property has been owned less than 12 months and the appraisal shows a substantial increase in value from the purchase price, the appraiser should ensure that the increase in value is valid.
- The appraiser must report and analyze a minimum three-year sales history for the subject property AND if the value has increased by 15% or more in one year or 30% in three years from the original sales price the appraiser must analyze and explain the increase if due to a below market sale, such as a property in foreclosure. If the increase was due improvements, the appraiser must analyze and explain.
- Traditional appraisal report completed by a state-licensed or state-certified appraiser required on all loans.
- A 2055/1075 appraisal allowed, if DU conditions for it (not allowed with DU Version 9.0 or greater).
- A 2075 exterior inspection only is acceptable, if DU conditions for it (not allowed with DU Version 9.0 or greater). The 2075 is not required to be ordered via PRMG's Appraisal Department. The broker/loan officer may utilize an appraiser of their choice, but must obtain approval of the appraiser from PRMG's Appraisal Department (appraisals@prmg.net) to ensure the appraiser is acceptable to PRMG.
- Appraisal Waiver (formerly known as a Property Inspection Waiver (PIW) allowed when offered by DU (see section below)
- Freddie Mac's Automated Collateral Evaluation (ACE) allowed when offered by LPA (see section below)
- An exterior property inspection is required for properties located in an identified FEMA disaster area if the original appraisal was completed prior to the disaster being declared. For 90 days after the disaster date, a full appraisal will be required. See PRMG Disaster Guidance/Announcements for specific details and full requirements.
- If property is in an area declared a disaster by FEMA, and using reduced appraisal documentation (such as a 2055/2075), immediately before or up to 90 days after a disaster, a full appraisal will be required and the appraiser must address any lingering negative impact on value, habitability or marketability of the disaster occurrence.
- PRMG reserves the right to require additional appraisal reviews/reports at the underwriter's discretion.
- Follow agency requirements in regards to addressing appraisal deficiencies.
- When adjustments are made to the appraisal for the year built, whether they are made for the actual age or the effective age of the subject property, the appraiser must provide an explanation for the adjustments and the condition of the property.
- If property is legal, non-conforming and a rebuild letter is required (see Appraisal

	<p>Guidelines for requirements), property must be able to be rebuilt to 100%. If a rebuild letter is not required, property is not required to be rebuilt to 100%, but must meet requirements as described in Appraisal Guidelines (found in the Resource Center).</p>

This zone must match our flood determination provider’s zone. Otherwise, evidence that the borrower’s zone is “grandfathered” must be provided. If the improvements are in a split zone (partially in and partially out) the policy must be rated for the more hazardous zone. Flood insurance is required if there is knowledge that the property is exposed to flood risks, even if the property is located in a community that does not have FEMA flood maps. For hazard insurance, properties in an attached condominium and attached PUD project (including 2-4 unit projects) require 100 percent of the insurable replacement cost coverage for the complete condominium (interior and exterior of the condominium).The HO-6 policy must be sufficient to repair the interior of the condominium unit, including any additions, improvements and betterments to its original condition in the event of a loss. If the HOA Master Policy does not provide coverage for the interiors of the project units, an HO-6 (or its equivalent) Policy for the individual unit is required. An HO-6 policy should have replacement cost coverage, and if the policy does not reflect the coverage amount, then the amount of coverage should be determined by the insurer. If the homeowners association owns the common elements, areas/facilities of a project separately (or holds them in a leasehold estate), insurance on those areas is required to insure that ownership (if there are no common areas owned by HOA a letter from them will suffice to prove it is not needed.)

The title insurance policy must specifically insure against any loss that results from a violation that existed as of the date of the policy; Insuring that the unit does not encroach on another unit or on any of the common elements, areas or facilities. Texas Addendum

The following guidelines refer to loans in Texas only. If a topic is not addressed in this addendum, the standard Agency guidelines above should be followed. Also, please note that no underwriting exceptions are allowed on properties located in Texas.

PURCHASE	<ul style="list-style-type: none"> • Allowed • Purchase transactions that include subordinate financing subject to Section 50(a)(6) provisions are limited to a maximum LTV/TLTV/CLTV of the lesser of 80% or the maximum allowed by product or loan amount.
RATE/TERM REFINANCE	<ul style="list-style-type: none"> • Proceeds from a rate/term refinance may only pay off the following: <ul style="list-style-type: none"> • 1st liens that are not considered Section (a)(6) and Second liens used entirely for the purchase of the property. • When a prepayment penalty fee is assessed on an existing NON Section 50 (a) (6) loan and is included in the payoff amount, the new loan can be considered a rate/term refinance if the title company agrees and issues a new title policy for the full loan amount (including prepayment penalty fees) • HOA dues may be paid off if the title company requires them to be paid. If the title company does not require them to be paid, the borrower must pay the dues outside of closing, and they must NOT be included in the loan amount. • Proceeds from a rate/term refinance may NOT pay off the following: <ul style="list-style-type: none"> • Any loan that is considered a Section (a) (6) loan unless the below requirements are met that make it a Section (f)(2) transaction. Section (f)2 transactions are eligible with application dates on or after 1/1/18. • Any loan that the borrower received cash back on • Federal tax debt liens • Liens for delinquent property taxes on the property securing the new loan • Any previous Section 50(a)(6) must be processed as a Section 50(a)(6) unless the following requirements are met to make it a Section 50(f)(2) transaction: <ul style="list-style-type: none"> • Application dated on or after 1/1/18 • The refinance will be closed no less than one year from the closing of the previously funded home equity loan; • The loan proceeds do not exceed any existing liens on the property being refinanced plus any costs associated to the refinance (i.e. no cash back to the borrower); • The loan proceeds cannot be used to pay off other debts; • The refinanced loan cannot exceed 80% loan to value; • The lender must provide the borrower with a notice about their rights associated with a home equity or non-home equity loan 12 more days prior to closing. • Note: for HELOC loans where the borrower has taken his/her last advance in under a year, in calculating the seasoning requirements, PRMG will look to the original advance of credit/HELOC Agreement Date • Rate/term refinances may NOT receive any cash back to the borrower, even incidental cash. Limited cash out refinances that allow the borrower to receive cash back are NOT eligible under the Texas rate/term refinance program. • Incidental cash back to the borrower at Closing is not allowed, including incidental cash back as result of POC fees being refunded to borrower. Additionally, incidental cash back must either be handled by reducing/curtailing principal or reducing the loan amount and having the documents re-drawn. • For owner occupied primary residence Texas loans, if the property was ever refinanced under Section 50(a)(6) (a cash out refinance) every subsequent refinance is considered

	<p>a Section 50(a)(6) loan it must be processed under the Agency Texas Home Equity program, unless the above requirements are met that make it a Section (f)(2) transaction. Section (f)(2) transactions are eligible with application dates on or after 1/1/18.</p> <ul style="list-style-type: none"> • Total financed Closing costs are limited to those costs that are reasonable and actually required to close the transaction. Prepaids/escrows can't be financed into the new loan when grossed up in loan payoff. The documents should be redrawn reflecting the new loan amount. POC fees can't be financed into the loan amount. Special title insurance coverage must be obtained when impounds for prepaid expenses* are included in the new loan amount. Note that prepaids can only be included in the new loan amount if netted from the payoff of the existing loan. The following must be included as a Schedule B Exception: Possible defect in lien of the insured mortgage because of the Insured's inclusion of reserves or impounds for taxes and insurance in the original principal of the indebtedness secured by the insured mortgage. * Prepaid expenses are defined as real estate taxes (includes non-delinquent taxes which are due and payable, as well as reserves), hazard insurance premiums, and monthly MI premiums covering any period after the settlement date. • The following P-39 Express Insurance Coverage endorsement is recommend: Company insures the Insured against loss, if any, sustained by the Insured under the terms of this Policy by reason of a final, non-appealable judgment of a court of competent jurisdiction that divests the Insured of its interest as Insured because of this right, claim or interest. Company agrees to provide the defense to the Insured in accordance with the terms of this Policy if suit is brought against the Insured to divest the Insured of its interests as Insured because of this right, claim or interest. • Certain restrictions apply to Rate/Term refinance transactions that include subordinate liens. These restrictions include: (1) Only one loan subject to Section 50(a)(6) provisions may be secured by the subject property at any given time, regardless of lien position. (2) When the subordinate lien is subject to Section 50(a)(6) provisions, the maximum LTV/TLTV/CLTV is the lesser of 80% or the maximum allowed by product or loan amount. Subordinate liens used entirely to purchase the subject property may be eligible for payoff as a rate/term refinance, subject to the following requirements: (1) The HUD-1 Settlement Statement or Closing Disclosure from the transaction must be provided evidencing all funds were used to purchase the subject property. (2) The commitment for title insurance may not reflect that the loan was originated as a home equity/cash-out Section 50(a)(6) loan. (3) The financing may be paid off, paid down or re-subordinated with the refinance. (4) The borrower may not have received any cash back from the subordinate financing. If the borrower received cash back and the loan is being paid off or paid down, the lien is subject to Section 50(a)(6) provisions and considered a home equity/cash-out transaction, and therefore, ineligible. • Refinance transactions documentation must be provided (commitment for title insurance, mortgage/deed of trust and/or HUD-1 or Closing Disclosure) in each loan package to verify that a home equity/cash-out loan under Section 50(a)(6) has not previously been originated against the subject property. If the purpose of the loan is not clearly identified on the commitment for title insurance, it will be necessary to provide previous mortgage/deed of trust or HUD-1 or Closing Disclosure for each transaction originated on or after 1/1/98 to verify the purpose of the existing Loan.
CASH OUT REFINANCE	<ul style="list-style-type: none"> • Owner Occupied: See Agency Texas Home Equity Program or see Agency Portfolio Product or Agency LP Fixed or ARMs for non-Section 50(a)(6) loans that are considered cash out solely by Agency • Second Home and Investment Properties: <ul style="list-style-type: none"> • Allowed per standard guidelines, but must provide copy of borrowers most recently filed tax returns evidencing the property has been a second home or

2. Did a government or non-profit lender make the “low-rate home loan?” **Y/N**
 - If yes, continue.
 - If no, stop. This worksheet is not required.

3. When was the “low-rate home loan” closed? _____ (Anniversary Date)
 - If the anniversary date is less than seven years, continue.
 - If the anniversary date is equal to or greater than seven years, stop. This worksheet is not required.

4. What was the initial interest rate on the “low-rate home loan?” _____ %
 - A. In the case of a loan with a discounted introductory rate, what was the initial fully indexed rate? _____ %
 - B. Is the interest rate on the new loan less than the rate referenced in 4A? **Y/N**
 - If yes, continue.
 - If no, this loan is not eligible.

5.
 - A. What were the total points and fees paid by the borrower on the “low-rate home loan?” \$ _____
 - B. Are the points and fees being paid by the borrower on the new loan less than the points and fees referenced in 5A? **Y/N**
 - If yes, this loan is eligible.
 - If no, the loan is not eligible.

****A “low-rate home loan” is a loan with an initial rate that is two percentage points or more below the yield on treasury securities with maturities comparable to the loan term. If the loan had a discounted introductory rate, then the fully indexed rate should be used to determine whether the loan is a “low-rate home loan”.***
