Verification may not be made verbally, and a certification by PRMG indicating the information was verified is not allowed. Documentation from the source used to verify the information must be obtained and in the file. Internet sites such as 411.com, Chamber of Commerce sites and Manta.com where they allow the business owner to add their own information are not acceptable. Also single source verifications, such as from superpages.com, yellowpages.com and searchbug.com are not allowed. If **all** other methods of obtaining third party verification have been exhausted, the borrower can provide letters from three clients indicating the type of service performed, length of time of business relationship, frequency of service, payment arrangements, etc. and support the income with current bank statements, deposits, etc. The underwriter must thoroughly investigate that the business, income and proof of business is legitimate.

The borrower may not pay down the balance in order to meet the 10-month requirement. • Accounts for which the borrower is an authorized user must be included in a borrower’s DTI ratio unless documentation shows that the primary account holder has made all required payments on the account for the previous 12 months. If less than three payments have been required on the account in the previous 12 months, the payment amount must be included in the borrower’s DTI. • All deferred obligations (excluding student loans), regardless of when they will begin, must be included in the qualifying ratios. The lender must obtain evidence of: the deferral; the outstanding balance; the terms of liability; and the anticipated monthly payment. If the actual monthly payment is not available for installment debt, the lender must utilize the terms of the debt or 5 percent of the outstanding balance to establish the monthly payment.

- For cases assigned prior to 6/30/16, for all deferred student loans, if the actual monthly payment is zero or is not available, the lender must utilize 2 percent of the outstanding balance to establish the monthly payment.
- For cases assigned prior to 6/30/16, for student loans currently in a standard repayment plan, the required monthly payment is to be used for qualification purposes. For student loans currently in an income based repayment plan (there are various income based student loan repayment plans, some include increasing repayment amounts), utilize the payment noted on the income based repayment agreement. The current payment can be used even if a payment increase is reflected on an agreement. If a monthly payment is not reflected on the credit report then documentation as evidenced by a monthly payment statement, a letter from creditor or a repayment schedule, is required to verify monthly payment.
- For cases assigned on or after 6/30/16, student loans must be included in the borrower's liabilities, regardless of the payment type or status of payments (deferred or in payment status). If the payment used for the monthly obligation is: (1) less than 1 percent of the outstanding balance reported on the Borrower's credit report, and (2) less than the monthly payment reported on the Borrower's credit report; then written documentation must be obtained of the actual monthly payment, the payment status, and evidence of the outstanding balance and terms from the creditor. Regardless of the payment status, use either: (1) the greater of: (a) 1 percent of the outstanding balance on the loan; or (b) the monthly payment reported on the Borrower's credit report; or (2) the actual documented payment, provided the payment will fully amortize the loan over its term.
- For 30 day accounts, must verify the borrower paid the outstanding balance in full on every 30-Day account each month for the past 12 months. 30-Day Accounts that are paid monthly are not included in the Borrower's DTI. If the credit report reflects any late payments in the last 12 months, must utilize 5% of the outstanding balance as the Borrower's monthly debt to be included in the DTI. Must use the credit report to document that the borrower has paid the balance on the account monthly for the previous 12 months. Must use the credit report to document the balance, and must document that funds are available to pay off the balance in excess of the funds and reserves required to close the mortgage.
- For revolving accounts, must include the monthly payment shown on the credit report for the revolving charge account. Where the credit report does not include a monthly payment for the account, must use the payment shown on the current account statement or 5% of the outstanding balance. Must use the credit report to document the terms, balance and payment amount on the account, if available. Where the credit report does not reflect the necessary information on the charge account, must obtain a copy of the most recent charge account statement or use 5% of the outstanding balance to document the monthly payment.
- Paying off revolving debt to qualify is allowed. The debt includes any revolving debt that is being paid off and not included in the ratios. Account must be paid in full prior to or at closing and documentation must be provided evidencing repayment. Source of funds must be documented (proceeds on a cash out transaction are acceptable.) Accounts are not required to be closed.
- For non-HELOC loans, when qualifying a borrower that has a non-subject negative amortization or interest only loan, use the fully amortized payment
- For any additional properties, obtain a recent payment coupon or other documentation to ensure the loan is qualified using the full PITIA.
- The percentage of non-taxable income that may be added cannot exceed the greater of 15% or the appropriate tax rate for the income amount, based on the borrower's tax rate for the previous year. If the borrower was not required to file a federal tax

return for the previous tax reporting period, gross up the non-taxable income by 15%. Any additional adjustments or allowances based on the number of the borrower's dependents is not allowed

- If the borrower has a tax lien, the underwriter must condition for proof the money owed has been paid in full or paid off in full at closing and must include the current amount of the lien, including all interest and late fees or provide evidence to verify the borrower has entered into a valid repayment agreement with the federal agency to make regular payments on the debt and the borrower has made timely payments for at least three months of scheduled payments. The borrower cannot prepay scheduled payments in order to meet the required minimum of three months of payments. The lender must include the payment amount in the agreement in the calculation of the borrower's DTI ratio. There is no requirement for a record of account or other documentation to reflect tax payment status. For the current tax year (most recent tax filing), if there is evidence the borrower has outstanding tax debt or the if the borrower is in a payment plan, then the monthly tax payment amount must be included in the calculation of the borrower's DTI ratio, but there is no minimum months of payment required to have been made. For prior tax years, if there is evidence the borrower has outstanding tax debt or the borrower is in a payment plan, evidence to verify the borrower has entered into a valid repayment agreement with the federal agency owed to make regular payments on the debt and underwriter discretion can be used to determine the minimum months of payment required to have been made. Even if the 1040s shows payment due as long as there is no other evidence of an outstanding tax debt (i.e., tax liens, payments to the IRS) no additional evidence to reflect payment of the taxes is required. For Amended Tax Returns or Stamped Tax Return option, see the applicable guidance in the Product Profile for further requirements.
- In community property states, tax liens of any non-borrowing spouse must be paid. The credit history of the non-borrowing spouse in regards to the lien does not have to be considered, but the tax liens have to be paid.
- To calculate DTI for loans with subordinate HELOCs (for all properties): If there is a balance, use the payment that is reflected on the credit report. If there is no payment on the credit report, obtain a copy of the billing statement, or note to determine the payment amount, based on the terms of the note, or the statement. If there is no balance, a payment does not need to be included.
- For borrowers with collection accounts, if the cumulative outstanding balance of all collections of all borrowers is less than \$2,000, the lender is not required to consider or evaluate collection accounts. If the cumulative outstanding balance of all collections of all borrowers is equal to or greater than \$2,000, the lender must include monthly payments in the borrower's debt-to-income ratio for accounts that will remain open subsequent to closing or require the collection account to be paid off as described as follows (also see Credit Section): At the time of or prior to closing, payment in full of the collection account (verification of acceptable source of funds required). The borrower makes payment arrangements with the creditor. If the borrower has entered into a payment arrangement with the creditor, a credit report or letter from the creditor verifying the monthly payment is required. The monthly payment must be included in the borrower's debt-to-income ratio. If evidence of a payment arrangement is not available, the lender must calculate the monthly payment using 5% of the outstanding balance of each collection, and include the monthly payment in the borrower's debt-to-income ratio. Note, All medical collections and charge off accounts are **excluded** from this requirement and do not require resolution. Collection accounts of a non-purchasing spouse in a community property state are **included** in the cumulative balance.

Note, borrowers are not allowed to prepay scheduled payments in order to meet the required minimum of three months of payments. The payment amount in the agreement must be included in the calculation of the borrower's debt-to-income ratio. Acceptable documentation would include, but is not limited to, an LOE from the owner/landlord of the residence where they currently live. • For contingent/co-signed liabilities, follow HUD guidelines which will allow the payment to be excluded from monthly liabilities only if (1) documentation is provided to evidence that the other party to the debt has been making regular on-time payments during the previous 12 months and does not have a history of delinquent payments on the loan; or (2) documentation is provided which verifies and documents that there is no possibility that the debt holder will pursue debt collection against the borrower should the other party default. • If a borrower is on title (has ownership interest) and is on the note to other properties besides the subject property, follow FHA guidelines for contingent liabilities for both the P&I payment as well as the taxes, insurance and additional items (association fees) (TIA). If borrower is just on title, and not obligated on the note for non-subject properties, the TIA does not have to be included in borrower's ratios as long as documentation is provided to show 12 months' satisfactory payments by the other party who is on title and the note, in alignment with contingent liability requirements. If the taxes and insurance are not escrowed or the property is owned free and clear, and the TIA is not paid on a monthly basis (i.e. annually, semi-annually) then a sufficient history of payments made by the other party on title must be presented to make a reasonable conclusion that it will continue.
